

Southwest Center for Pediatric Environmental Health Trainings

About this Enduring Course

This self-paced Canvas enduring course includes two separate modules designed to enhance awareness and understanding of pediatric environmental health.

Module 1: Pediatric Environmental Health Grand Rounds (PEHGR)

This module introduces participants to core concepts in pediatric environmental health, featuring case-based learning and expert-led presentations that address how environmental exposures impact children's health outcomes.

Module 2: Indoor Air Quality (IAQ) in Schools and Childcare Environments

Healthy indoor air quality is essential for creating safe and supportive learning environments for children and staff. This module provides guidance on identifying, preventing, and addressing air quality issues in schools and childcare centers.

The following modules contain courses that are designed to align with the PEHSU mission, which is to:

- Reduce environmental health threats to children.
- Improve access to expertise in pediatric environmental medicine.
- Strengthen public health prevention capacity.
